Contents Volume 46, 1991

Research Papers

The heat source of Ruapehu Crater Lake; deductions from the energy and mass balances
A.W. Hurst and H.M. Bibby (Wellington, New Zealand), B.J. Scott (Rotorua, New Zealand) and M.J. McGuinness (Wellington, New Zealand) 1

Guagua Pichincha volcano, Ecuador: fluid geochemistry in volcanic surveillance
L. Marini, A. Agostini, R. Cioni and M. Guidi (Pisa, Italy), and O. Leon (Quito, Ecuador) 21

Partition of arsenic and phosphorus between volcanic gases and rock. Part I: analytical data and magmatic conditions of Mt. Usu, Japan
V.S. Mambo, M. Yoshida and S. Matsuo (Tokyo, Japan) 37

Chemical geothermometers applied to the study of thermalized aquifers in Guaymas, Sonora, Mexico: a case history
R.M. Prol-Ledesma (Mexico D.F., Mexico) 49

Time trend analysis of basaltic volcanism for the Yucca Mountain site
Chih-Hsiang Ho (Las Vegas, NV, USA) 61

The heating duration and provenance age of rocks in the Salton Sea geothermal field, southern California
M.T. Heizler and T.M. Harrison (Los Angeles, CA, USA) 73

Structural setting and magmatic evolution of Montefiascone Volcanic Complex, Vulsini District, central Italy
M. Coltorti (Ferrara, Italy), G. Di Battistini (Parma, Italy), G. Nappi and A. Renzulli (Urbino, Italy), and O. Zeda (Parma, Italy) 99

Geochemical investigations of submarine volcanic exhalations to the east of Panarea, Aeolian Islands, Italy
F. Italiano and P.M. Nuccio (Palermo, Italy) 125

Reworking characteristics of Quaternary pyroclastics, Thera (Greece), determined using magnetic properties
W.S. Downey (Bundoora, Vict., Australia) and D.H. Tarling (Plymouth, UK) 143

Degassing and differentiation in subglacial volcanoes, Iceland
J.G. Moore and L.C. Calk (Menlo Park, CA, USA) 157

Short Communication

A search for the volcano-magnetic effect at Ruapehu and Ngauruhoe, New Zealand
P.C. Whiteford (Wellington, New Zealand) 181

Research Papers

Petrology of final-stage Latera lavas (Vulsini Mts.): mineralogical, geochemical and Sr-isotopic data and their bearing on the genesis of some potassic magmas in central Italy
S. Conticelli, L. Francalanci and A.P. Santo (Florence, Italy) 187

Sr- and Nd-isotopic and trace-element constraints on the chemical evolution of the magmatic system of Ischia (Italy) in the last 55 ka
L. Civetta (Napoli, Italy), G. Gallo (Catania, Italy) and G. Orsi (Napoli, Italy) 213

Monitoring oxygen fugacity conditions in pre-, syn- and postcaldera magma chamber of Nisyros volcano, Aegean island arc, Greece
K. St. Seymour (Montreal, Que., Canada) and A.E. Lalonde (Ottawa, Ont., Canada) 231
Subaqueous rhyolite block lavas in the Miocene Ushikiri Formation, Shimane Peninsula, SW Japan
K. Kano, K. Takeuchi and T. Yamamoto (Ibaraki, Japan), and H. Hoshizumi (Fukuoka, Japan) 241
Chemical and isotopic composition of magmatic gases from the 1988 eruption of Klyuchevskoy volcano, Kamchatka
Yu.A. Taran, A.M. Rozhkov and E.K. Serafimova (Petropavlovsk, USSR), and A.D. Esikov (Moscow, USSR) 255
Magmatism of the troughs behind the New Hebrides island arc (RV Jean Charcot SEAPSO 2 cruise): K-Ar geochronology and petrology
M.C. Monjaret and H. Bellon (Brest, France), and P. Maillet (Bundoora, Vic., Australia) . 265
Stress modeling at Long Valley, California: borehole stability near a magma chamber
M. Wu (Evanston, IL, USA) and H.F. Wang (Madison, WI, USA) 281
The origin of geochemical variations in a Late Permian volcanic arc, eastern Klamath Mountains, California
C. Alibert and P. Martin (Vandoeuvre, France), and H. Lapierre (Orleans, France) 299

Letter section
Excessive sulfur dioxide emissions from Chilean volcanoes
R.J. Andres and W.I. Rose (Houghton, MI, USA), P.R. Kyle (Socorro, NM, USA), S. deSilva and P. Francis (Houston, TX, USA), M. Gardeweg and H. Moreno Roa (Santiago, Chile) . 323

Book Reviews
Intraplate Volcanism in Eastern Australia and New Zealand, by R.W. Johnson (Editor) — J.W. Cole 331
Tarawera: The Volcanic Eruption of 10 June 1886, by R.F. Keam — B.F. Houghton 332
